Stop Rust & Corrosion 100%

PLID Aerosol Fluid Thin Film

Advanced Fluid Thin Film Technology

- Displaces moisture
- Adheres like a magnet to steel
- Penetrates existing rust & corrosion
- Shuts down corrosion & electrolysis
- Resists splash, spray & submersion
- Penetrant, anti-seize & high pressure lubricant
- Dielectric constant 40,000 volts

Forms a dynamic, self-healing, non-hardening and driplless film.

Ultimate in moisture and corrosion protection

Approved for food processing facilities and equipment

There is no better!
